

NeatClubs.COM

Neat and Tidy On-line Services for your Club, Association or Small Business Enterprise

What most Clubs, Associations and Small Businesses have in common are a few simple needs. They co-ordinate membership or customers, organize events & activities, publish newsletters, schedules or documents, accept on-line payment, donations, subscriptions or registration fees, and provide information about their organization and services to the general public and membership via the web.

While many organizations already have a web-site, "true" on-line facilities such as registration, collaboration, automated newsletter subscription and payment have been out of reach for most small volunteer based organizations. Even as prices have fallen dramatically for hosted internet and basic web-design services, basic on-line commerce capabilities can still cost organizations many thousands of dollars and are complex and time consuming to implement. Also, most organizations that have a web presence are dependent on a single skilled volunteer or contractor for web-site maintenance. There simply has to be a better answer for small organizations on a budget to establish a simple, high quality on-line presence and we think we have the answer at NeatClubs.COM!

How NeatClubs.COM is Different

The traditional approach to hosting on-line commerce services involves engaging a hosting company, contracting with a web-designer and possibly a web developer to spec and build a system to meet your needs. This can cost many thousands of dollars in addition to on-going hosting fees. In addition, many organizations pay professional service fees to maintain their sites on an on-going basis and for enhancements to accommodate special needs.

NeatClubs.COM has a different business model. You can "HAVE IT ALL" at a cost less than many service providers charge for simple internet hosting! Cancel anytime without penalty, and if you do, take your most precious asset, your membership or customer data with you.

NeatClubs.COM Benefits

- Increase your Membership or Customer base while improving member retention and revenues
- Increase revenues (and reduce costs) through on-line registration and payment services making your services accessible to a wider audience
- Simplified collection of fees and sponsorships, donations & administration of tax receipts for not-for-profit organizations
- Create a sense of community around your organization with photo galleries & custom content
- Automated Event reminders via E-Mail or SMS to maximize member of customer attendance
- Simplified the distribution of newsletters to customers or members while respecting their privacy

Everything You Need is Here

- An "ALL-IN" Solution for approximately \$40.00 per month
- Solution includes a hosted website, your own domain with e-mail hosting, on-line calendar, document library, photo gallery, content management facility, event coordination & registration
- Built-in interface to the free PayPal™ Payment Standard Merchant account to simplify trusted on-line financial transactions
- "WYSIWYG" web content management allows you to delegate maintenance for web content to anyone with basic computer skills
- Hosted in a secure managed Data Center with 7x24 management and service level guarantees with no practical limits on data storage, numbers of users, or numbers of events

NeatClubs.COM simply represents a tremendous value for any organization interested in delivering services on-line.

NeatClubs.COM

Some NeatClubs.COM Features

- On-line WYSIWYG Editor allowing anyone who can run a word processor to design Newsletters, Web-Pages, E-Mails or Event & Calendar Descriptions
- Highly configurable Web-site that can be setup in 30 minutes with logos, menus, color schemes and layouts that are customized to your organization for a professional quality appearance.
- In addition to a library of existing fields stored for each member or customer, you can add your own fields of various types and control the layout of data entry screens.
- Easy to use on-line calendar that permits authorized members to post entries easily to a shared calendar
- Supports a range of event options including on-line registration, on-line sales of good or services, on-line donations, subscriptions and information only events.
- Supports 'auto notification features' to send messages or reminders to all event registrants in the event of a change in event logistics
- Image library with built in thumbnail support, image size optimization and slideshow functionality
- Document library supporting an unlimited variety of document types
- All on-line documents have permissions associated with them so you can restrict what membership classes are able to see what documents.
- Easily incorporate custom content with site customizable menus and unlimited custom web pages
- Built in Newsletter Management and distribution facility with archival capabilities
- Built in Google Sitemaps support allows you to generate XML sitemaps that make sure Google indexes appropriate content on your site
- Web log capture facilities which allow you to see who is visiting your site and how often
- On-line Bill Presentment facility allows you to generate e-mail invoices to customers or members for "click to pay" functionality. Ideal for collecting money for club related activities or providing simple on-line payment for customers
